Subject: Commencement of Development for New Islamic Cemetery in Smithfield, South Australia

Dear Brothers and Sisters,

AlhamduLILLAH,

We have been looking forward to this moment, and we would like to announce that the development of the new Islamic Cemetery in Smithfield has commenced this week. The earthmoving machines have begun the clearing works.

Upon completion of the clearing phase, we will proceed to mark the beams on the ground. Our respected Imams will be present onsite to ensure the precise orientation of the concrete beams towards the QIBLAH, inshALLAH.

Thereafter, we will be contacting those who have already purchased plots to assist in finalising the ownership process and allocating plot numbers. For those wishing to pre-paid a plot before the allocation of numbers, securing a site for yourself, your family, or within your community, please do not hesitate to contact us for more information via email: projects@islamicsocietysa.org.au

We are also grateful to inform you that we have officially submitted application to the council for the construction of a new mosque, washing area, car park, and landscaping next to the cemetery area, as per our original plan. We are eagerly awaiting their approval and pray for a swift and positive response, inshALLAH.

We will provide continuous updates on the progress step by step inshALLAH.

May the blessings and guidance of ALLAH be with us throughout this blessed journey.

Sincerely,

Ahmed Zreika
President, Islamic Society of South Australia
