

COVID-19 WARRIORS

Every day and every night,
Working hard with all their might.

Working hard for us to survive,
Making sure that the people thrive.

Doctors, nurses, police, and healthcare workers,
They truly are our incredible life savers.

They are our superheroes,
Fighting hard to bring down covid cases to zeros.

They don't ask for any applause,
As their fight is for a greater cause.

Working for months away from their loved ones,
On behalf of the world, I thank you a million tons.

They truly are our heroes in these challenging times,
Putting their lives at risk, almost every time.

Your kindness and strength are greatly admired,
For risking your health in the direct line of fire.

I salute to all frontliners for their dedication,
Thank you for your services to our entire nation!
