

Covid-19 Sacrifices

To the warriors who fought and stood with us

Who fought to make the earth a cradle and a safe place for us

Who put themselves behind the bars of the equipment to give us safety

Everyone who sacrificed their time and life to comfort and helps

We called and they were on the lookout

we strengthened them, and they became the source of our strength

Protect us far from their homes

They protected us as if we were their family

Doctors give us their precious lifetime and effort

The police care about our safety, fighting to protect us from the criminal covid
that slays our bodies

Helpers who lift our spirits, help us feel better and find the weapon of masks
and sanitiser to keep us safe

Teachers who sacrificed their souls to attend their classes and teach
generations to come

Shops and societies who have given everything they have to make our days
happier

Thank you for your efforts and sacrifices
